

Oracle Tutorial

.Outline:

- Login to oracle server
- Create account
- Use SQL Developer

Login to Oracle Server

- Hostname: csoracle.utdallas.edu

- Mac / Linux users:

 - ssh your_netid@csoracle.utdallas.edu

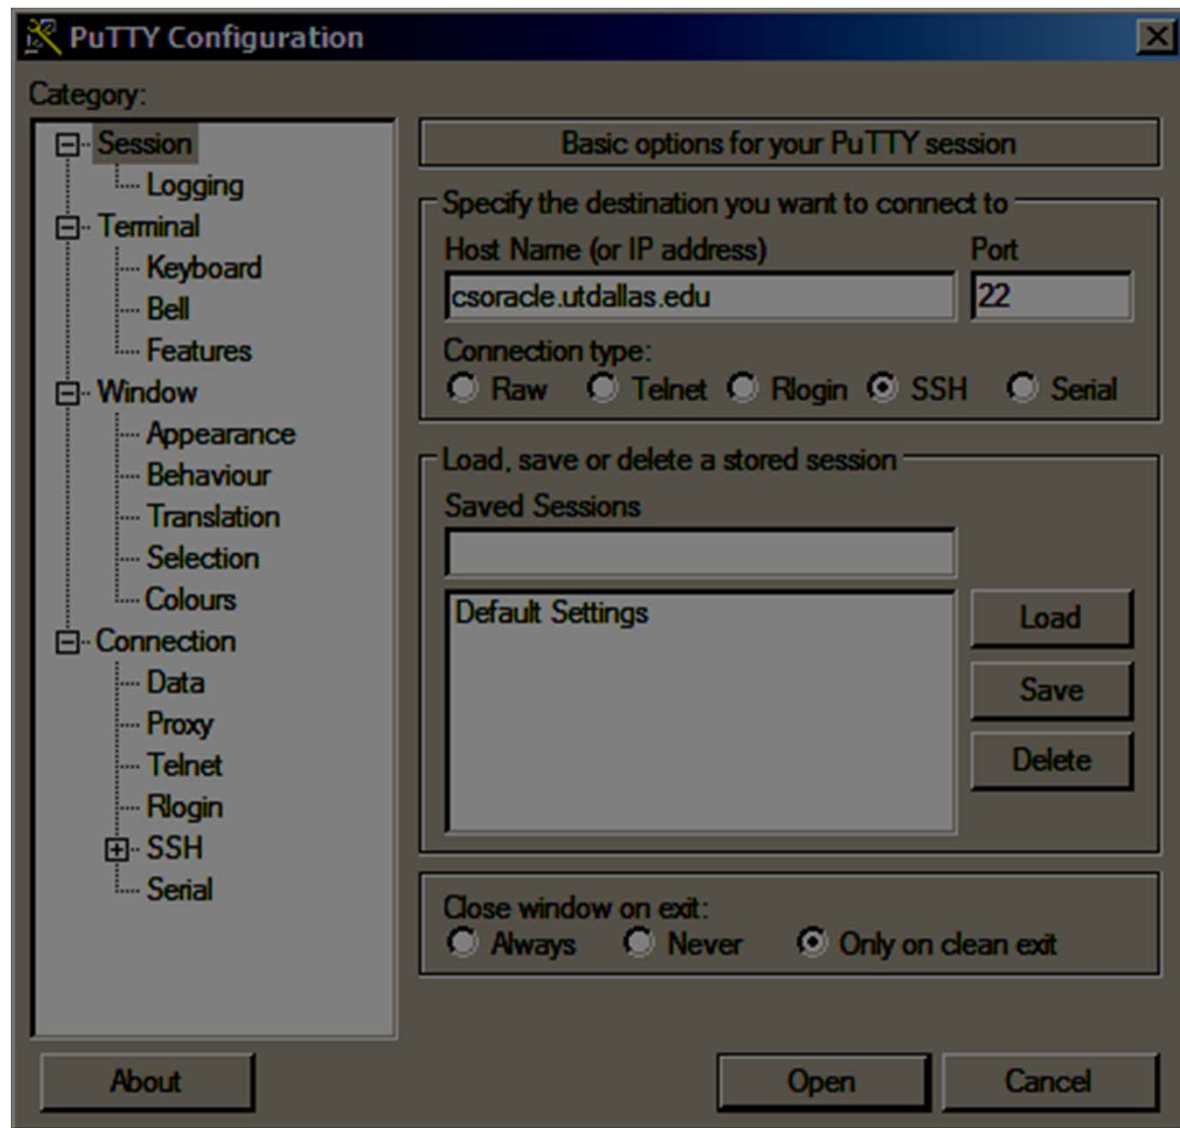

- Windows users:

 - Any ssh client

Login to Oracle Server

•Putty:

- Search “putty”
- Download the executable
- Double click to open:

PuTTY Configuration

Category:

☒ Session

... Logging

... Keyboard

... Bell

... Features

☒ Window

... Appearance

... Behaviour

... Translation

... Selection

... Colours

☒ Connection

... Data

... Proxy

... Telnet

... Rlogin

☒ SSH

... Serial

Basic options for your PuTTY session

Specify the destination you want to connect to

Host Name (or IP address)

csoracle.utdallas.edu

Port

22

Connection type:

☐ Raw

☐ Telnet

☐ Rlogin

☒ SSH

☐ Serial

Load, save or delete a stored session

Saved Sessions

Default Settings

Load

Save

Delete

Close window on exit:

☐ Always

☐ Never

☒ Only on clean exit

About

Open

PuTTY Security Alert

The server's host key is not cached in the registry. You have no guarantee that the server is the computer you think it is.

The server's rsa2 key fingerprint is:

ssh-rsa 2048 79:fb:23:a2:ce:6c:95:7c:f1:15:1e:01:31:2b:7e:ff

If you trust this host, hit Yes to add the key to PuTTY's cache and carry on connecting.

If you want to carry on connecting just once, without adding the key to the cache, hit No.

If you do not trust this host, hit Cancel to abandon the connection.

Yes

No

Cancel

Login to Oracle Server

.Welcome message:

```
**** To create an Oracle account or to change your Oracle password ****
**** run the command: /usr/local/bin/oam.pl ****
```

Once your Oracle account has been created with the oam.pl script,
access Oracle using Oracle SQL Developer.

http://cs.utdallas.edu/about/Oracle_help.htm

NOTE: CS-Lab Manager (cs-labs@utdallas.edu) will >not< provide assistance
to those using Oracle via the command-line-interface.

If you must use the command line, Oracle binaries are in \$ORACLE_HOME/bin.

Create account

- Login to csoracle.utdallas.edu

- Run oam.pl:

 - See example

 - The '{csoracle:~}' is command prompt, it should be there already, don't type it

Type 'oam.pl' and press enter

```
{csoracle:~} oam.pl  
Creating Oracle account for 'YOUR_NETID'.  
Please Enter Password for Your Account :  
Confirm Password :
```

Create account

•Oracle password:

- Different with netid password
- Only uppercase / lowercase letters and numeric
- No special characters

Create account

•Run oam.pl (continued):

```
{csoracle:~} oam.pl
Can't load '/usr/local/lib64/perl5/auto/DBD/Oracle/Oracle.so' for module DBD::Oracle
at /usr/local/bin/oam.pl line 11
Compilation failed in require at /usr/local/bin/oam.pl line 11.
BEGIN failed--compilation aborted at /usr/local/bin/oam.pl line 11.
```

```
{csoracle:~} LD_LIBRARY_PATH=/opt/oracle/app/csoracle/product/12.1.0/dbhome_1/lib
{csoracle:~} ORACLE_BASE=/opt/oracle/app/csoracle
{csoracle:~} ORACLE_HOME=/opt/oracle/app/csoracle/product/12.1.0/dbhome_1
{csoracle:~} ORACLE_SID=student
{csoracle:~} export LD_LIBRARY_PATH ORACLE_BASE ORACLE_HOME ORACLE_SID
```

```
{csoracle:~} oam.pl
Creating Oracle account for 'YOUR_NETID'.
Please Enter Password for Your Account :
Confirm Password :
```

Oracle SQL Developer

- Recommended

- Download address:

 - <http://www.oracle.com/technetwork/developer-tools/sql-developer/downloads/index.html>

- Accept license and click download

- Create account and verify email address

- Download and decompress

- Double click: sqldeveloper.exe

New / Select Database Connection

Oracle SQL Developer

•Create connection:

- Connection name: <any name you want>
- Username: <your netid>
- Password: <the password you just set in oam.pl>
- Connection type: basic
- Role: default
- Hostname: csoracle.utdallas.edu
- Port: 1521
- SID: student

Oracle SQL Developer

•Create connection (continued):

- Click test and check if status shows success
- Click connect
- Done
